
Due to the recent chip-seal application on Jacobs, we are diverting to North Stevens for the 5 mile TT this Tuesday, 06/02/20. Personally, I'm looking forward to some really fast times due to this being a point to point course with some fast pavement and the potential for a nice tailwind. The start is at the 40K start on Stevens. We have also extended the long ride window for a couple of months. As always, we still have some addendums due to COVID:

- **DO NOT PARK ON PNNL PROPERTY.** There are many places to park near or within a few miles of the TT start, such as other private properties, WSU, residential neighborhoods or Leslie Groves Park. Disperse when parking. If you see another rider parked and getting ready, park 100ft away or more.
- We've increased the ride window to 2pm-7pm through July. Please take advantage of this to spread our riders out.
- This is an individual ride. Do not group up anytime.
- Keep right when riding. This allows adequate passing distance when overtaking another rider. Always pass on the left.
- Email your ride time to craig_liz_groen@msn.com, no later than Tuesday, 10pm.
